EXPERIENCE

Web Designer | Developer

Fullsteam

📅 01/2023 - Present 📍 Cedar Park TX

- Collaborated with a team of full-stack developers, designing new visually stunning web sections, templates, and features to enhance client engagement and improve user experience.
- Conceptualized, designed, and built impressive new web sections that were integrated into the company's new template design, increasing client retention by 25%.
- Served as a member of the Bureau of Fun Times, organizing office events to foster an enjoyable work environment.
- Worked cross-functionally between two companies under the Fullsteam umbrella, collaborating with designers, project managers, and QA engineers to deliver a consistent and high-quality product to clients.
- Facilitated effective communication between departments and clients to ensure that final product met or exceeded customer expectations, resulting in increased customer satisfaction and repeat business.

Junior Developer

Lumenbrite

📅 07/2022 - 01/2023 📍 Austin TX

- Revamped over 10 professional websites by incorporating modern designs and functionality using React, Node.js, and GraphQL.
- Identified and resolved complex technical issues on clients' websites, boosting customer confidence.
- Expanded the scope of the company's clientele, boosting profits from my department by 15%.

Lead Server

Fairmont Luxury Hotels & Resorts

📅 06/2021 - 06/2022 📍 Austin, TX

- United a team of career professionals just before achieving a Forbes Travel Guide 4-star rating for the restaurant.
- Acquired numerous 5-star reviews over a 12-month period that explicitly state my name.

🏋 Fitness & Health

SUMMARY

Full Stack web developer with a hospitality and customer service background. Attained a Full-stack Coding Bootcamp Certificate from the University of Texas Austin in 2022. Dedicated to problem-solving and consistently delivering the highest levels of customer satisfaction. Effective in collaborating and valuable in team dynamics. Known for creating innovative solutions, paying acute attention to detail, and quickly grasping new concepts.

PROJECTS

Tech Blog

📅 10/2022

- A CMS-style blog where users can create an account, comment on others' posts, and edit or delete their own posts and comments.
- Provides a space to discuss topics related to technology and to express thoughts freely.

Code Kings

📅 11/2022

Freelance Developer Platform

- MERN-stack application that uses real-world data to simplify the process of hiring or selling freelance developer skills.
- Combines a scalable MongoDB back end, GraphQL API, and an Express.js and Node.js server with a React front end.
- Implements user authentication with JSON Web Tokens to protect the user's privacy.

EDUCATION

Full Stack Coding Bootcamp

University of Texas

📅 06/2022 - 12/2022

- 24-week intensive program focused on equipping students with MERN Stack coding skills.

Physics

Texas State University

📍 San Marcos
